Press Release

Interstate 64 at IL Route 158, St. Clair County

Collinsville, Illinois – The Illinois Department of Transportation announces lane restrictions and ramp closures along WB Interstate 64 at IL Route 158 near Scott Air Force Base. Weather permitting, the right lane of WB I-64 and both WB ramps along the north side of I-64 will be closed starting at 7 AM, Thursday, June 2nd. Work is anticipated to be finished by 6 PM, Thursday, June 2, 2016.

The lane and ramp closures are needed to make emergency pavement repairs at this location. A joint effort between IDOT District 8 forces, Traffic Control Corporation, and Woods Basement Systems will make the needed repairs. Full access will be restored as soon as possible within this repair.

It is anticipated these restrictions and closures will result in traffic delays. Travel times will be affected on most roads in the vicinity of this closure. Motorists are encouraged to consider alternate routes or allow additional travel time in and around Scott Air Force Base. Advance dynamic message boards have been deployed to warn motorists in advance of this work. Additional traffic control devices will be utilized during these restrictions to assist motorists making their way through the work zone. The Department asks that motorists be patient, slow down and use extreme caution when travelling through this work zone.

Additional information is available at www.stl-traffic.org.
